

## **WHY Should YOU**

### **recycle Baling Twine?**

- **Baling twine is non-biodegradable & contributes to land, and air pollution.**
- **Several million pounds of twine & trash are discarded annually into local landfills, or private lands; leaving soil quality in ruin.**
- **When burned it releases noxious fumes and toxins.**
- **Baling twine is the leading cause in livestock/wildlife mortality.**
- **Birds can strangle after building the twine into their nests.**
- **Once eaten by livestock, it forms into a ball within the stomach, unless surgically removed, it causes death.**

## **Baling Twine Recycling Program**

**Support your local  
Florence FFA Chapter**

**... and recycle TWINE**

**How it works:**

- 1) Drop off twine at one of the collection sites.

**NO TRASH/FIELD SCRAPS  
(Grass/Hay, Corn Stalks, Ect.)**

**NO NET/SISAL TWINE**

**NO VET NEEDLES/HOOKS**

- 2) Florence FFA members will pick up the twine, bring it to the Ag Building behind the Florence High School

- 3) Some will be made into upcycled twine and will be available for sale.

- 4) The rest will be stored until it is delivered to Greeley where the FFA will receive 10 cents/lb of twine delivered.

**Protect Wildlife...**

**Protect Livestock...**

**And Support  
Florence FFA Chapter  
by collecting baling twine!**
